

# SafariQ Web3 Platform Website

## Design Draft

### Project Purpose:

A mobile-first, Web3-native platform website for **SafariQ**, introducing:

- Our **Travel Tech startup vision**
  - **Web3 ecosystem** (SED token, NFTs, referrals)
  - A **pre-launch signup portal**
  - Community building and user engagement tools (dashboard, wallet connect, X, TG, FB etc integrations)
- 

## Website Structure / Sections Overview

Order	Section Name	Description
1	<b>Hero Section</b>	Strong intro to SafariQ with AI + Web3 message
2	<b>SafariQ Travel Tech Ecosystem</b>	Feature-rich block with partner logos, core app Features, benefits

<b>3</b>	<b>SafariQ Web3 Vision</b>	SED token, NFT project, ownership loop, and wallet features
<b>4</b>	<b>Referral Game &amp; Signup Portal</b>	Invite-to-earn campaign with prelaunch signup, user Survey, signup bonus points.
<b>5</b>	<b>Roadmap Section</b>	Timeline for SED, NFT sales, MVP, and future goals
<b>6</b>	<b>Community &amp; Updates</b>	Twitter feed, Discord, Telegram links, newsletter
<b>7</b>	<b>Footer</b>	Wallet connect, social links, legal pages

---

## Section-by-Section Design Guide

---

### **1** Hero Section:

#### Headline (Bold & Disruptive):

**> Travel is Broken. We're Fixing It - With Web3 + Patent-Ready AI.**

 **Subheadline (1–2 lines for web3/tech narrative):**

**> From scattered bookings to zero loyalty, the travel industry is fragmented.**

**SafariQ is building a unified ecosystem powered by Web3 and a revolutionary AI core, bridging global services into one intelligent travel experience.**

---

 **Visual Suggestion (Bridging Concept):**

**A central visual or animation showing:**

**connecting travel services / apps (e.g., Air, Taxi, Hotel, Homes, Train, food, ferry, weather, SOS, passport )**

**Mix these too: Wallet icon, NFT Key, SED Token, and “SafariQ”**

**In the middle: a glowing AI + Web3 “bridge” funneling all services through SafariQ**

**Label it:**

**> "SafariQ — Bridging Travel with Ownership, Loyalty & Intelligence"**

**Can be:**

**3D graphic**

**Flat vector animation**

**or subtle parallax scroll visual on desktop**

---

 **Call-to-Action Buttons:**

- **Join the Journey (Signup)**
- **How SafariQ Works**

---

## Mobile Notes:

- Use a simplified static version of the visual (logos → bridge → SafariQ icon)
  - Place the CTA buttons below the copy
  - Optional: small glowing badge: “Patent-Pending Core AI”
- 

## 2 SafariQ Travel Tech Ecosystem (Dedicated Section)

### Headline:

**“The Future of Travel is Here — Powered by AI + Web3”**

### Subheadline:

SafariQ bridges all major travel services into one intelligent, reward-based platform.

### Content Blocks:

-  **Partner Brand Logos:** Booking.com, Skyscanner, Agoda, Airbnb, Emirates, Uber, + others.  
(greyscale logos with “Expected Integration” tag)

-  **Feature Cards:**
  - Smart Journey Planner
  - All-in-One Booking
  - Loyalty Vault
  - Travel Alerts
  - AI-powered Suggestions
  - Web3 Wallet Ready
  - FX Currency exchange
  - Free Global connectivity eSIM
  - Smart AI assistant
  - Emergency assistance
  - Data ownership
  - Reseller program
  - Earn as you Go..!

-  **Infographic Visual:**

“Travel → AI + SafariQ → Web3 Ownership”

 Mobile: stacked feature icons, logos scrollable   
Desktop: 3×2 feature grid, partner logos in single row

---

### **3 SafariQ Web3 Vision**

**Headline:**

**“Own Your Travel, With SED Tokens, NFTs, and Real Utility”**

## Core Components:

- **SED Token Utility Cards**

- Rewards for referrals, travel, staking
- Token claim status

- **NFT Vault Overview**

- Serialized Key NFTs (with rewards and Value)
- Minting counter

- **RWA Infographic:**

NFT Mint → Referral → Booking → SED Rewards → Claim / Hold

Mobile: Card layout stacks, funnel visual scrolls vertically

Desktop: Two-column layout + animated funnel/loop

## Call-to-Actions:

- Mint NFT
- Connect Wallet
- Signup

---

## **4** Referral Game & Signup Portal

### Headline:

**“Join or Invite Friends, Earn AED pegged SED Tokens, and Travel Rewards.”**

Signup form:

- Name
- Email
- Country
- Wallet address (Optional)

On signup → unique referral code + copy/share options

Referral Dashboard Preview:

- Invite count
- Rank (Explorer, Trailblazer, Ambassador)
- Leaderboard access

Mobile: step-by-step signup UX

Desktop: full form inline + live leaderboard (optional)

---

## 5 Roadmap

**Headline:**

**“Building the New Era of Travel — Step by Step”**

Roadmap Timeline:

-  MVP Build
-  SED token creation on Polygon
-  NFT Campaign Launch
-  Referral Leaderboard Activation
-  Loyalty Marketplace
-  AI Smart Alerts

-  Post-Trip Journals

 Mobile: vertical scroll roadmap

 Desktop: horizontal path with icons (rocket, token, flag)

---

## **6 Community & Updates**

 Embed live feed:

- Twitter: @SafariQ\_W3
  - Telegram & Discord links
  - Newsletter subscription
- 

## **7 Footer**

- Wallet Connect button
  - SafariQ socials (X, Lens, Warpcast, Telegram, etc.)
  - Terms & Conditions, Privacy Policy
  - Contact email
-

## Dashboard (Post-login Area)

Only available after sign-in or prelaunch registration

### Dashboard Sections:

- Referral Progress (rank, link, invites)
- NFT Vault (owned NFTs, mint more)
- SED Points details + total.

Mobile: swipeable cards per block

Desktop: 3-column layout with filters

## Design Aesthetics Summary

Trait	Style
Theme	Dark mode base with neon highlights (blue, violet, green)
Fonts	Bold, modern, readable (e.g., Sora, Inter, Space Grotesk)
Icons	Animated, glowing, travel/crypto style
Animations	Micro-interactions on hover, scroll-based visuals

Style Trend

Neo-brutalism x Futuristic  
Tech Blend

# Tech Stack Suggestions (For Dev Team)

Feature	Tool
Framework	Next.js or React
Styling	TailwindCSS + Framer Motion
Wallet Integration	RainbowKit / Web3Modal
Forms & Auth	Firebase or Auth0
NFT	Polygon + OpenSea/Crossmint APIs
Analytics	Plausible / PostHog (privacy-friendly)
